We're so glad to be working and serving as God directs. Aimee and I have made 95 masks for the staff of Colonial Hills to give with personal hand sanitizers at the beginning of the school year. Aimee was also contacted by some school staff to make personal masks of their choice. We did a Back-to-School Breakfast on August 13th for all Colonial Hills staff. It has been good staying in touch with school personnel during the summer. Regrettably, we will not be able to start Kids Club or on campus volunteering just yet but eagerly anticipate the time we will be allowed to be back on campus in person.

School Supplies

August 1st, Aimee and I set up and packed school supplies with her kiddos and husband, Braydon, Hailey, and Matt. Families were very appreciative for this encouragement when we handed them out August 8th. THANK YOU for giving toward supplies and please be in prayer for student, teacher, and family safety as they return to school. Please pray that students will read the Bibles and devotional materials selected especially for them and that God will draw them to Himself.

Pete, and I delivered school supplies on August 8th. It was a true blessing to see, speak with, pray for, and encourage these dear ones as they came to pick up their school supplies. We look forward to continuing to minister at Colonial Hills Elementary, SAMM, and Kerrybrook Apartments this fall. Pray for continued good health of all who come together to serve or be served during this still uncertain time. We are grateful and trusting our great and awesome God!

Thankful to God and you! Joyce Velasquez—Executive Director
